Introducing the Polyjacket- R
Made with 50% recycled content

The Greener Poly Mailer

PAC Worldwide strives to continually develop greener products. We are excited to announce the release of the new Polyjacket-R. This flat poly mailer is not only 100% recyclable but made with at least 50% recycled content. Polyjacket-Rs are available in a number of stock sizes. Also available in custom sizes and can be custom printed.

Closure System

→ Pressure sensitive (self-seal) adhesive closure is reliable and tamper-evident. Release liner peels off quickly. Easy to load contents and seal package when the packing process needs to be fast and efficient.

Material

→ Multi-layer (co-extruded) polyethylene film made of at least 50% recycled content. Durable, moisture resistant with exceptional puncture resistance and tear strength. Effective protection for your documents and valuable products. Enhances your corporate image and customer perception of your product(s).

Construction

→ Side weld heat seals and bottom fold construction offers superior bursting strength. Your contents will remain secure from the point of origin to its destination.
