

PACJacket Packaging System vs. Kraft Mailers In Corrugated Boxes

"The Green Machine"

COMPARISON

- **PACJacket bubble rolls (12" x 1450')**

8 rolls per pallet
x 26 pallets
= 208 rolls per truck
= 1450 bags per roll
= 301,600 bags per truck

- **One truck load of PACJacket bubble rolls is equivalent to 4.83 truck loads of Kraft bubble mailers in corrugated boxes**

- **PACJacket bubble rolls can be recycled – Kraft bubble mailers cannot**

- **Warehouse savings: 102 fewer pallets to store (1,632 sq ft saved)**

ENVIRONMENTAL IMPACT

Using PACJacket bubble rolls instead of Kraft bubble mailers in corrugated boxes:

- Saves **4,822 lbs of corrugated boxes** which is the equivalent of **38 trees**
- Saves **391 lbs of plastic** release liners from filling our landfills
- Saves **304 lbs of glue** from entering our waste stream
- Potentially saves **800 gallons of diesel fuel** as well as the carbon that would be released

- **Kraft bubble mailers (12" x 12")**

100 mailers per corrugated box
x 24 corrugated boxes per pallet
x 26 pallets
= 624 boxes per truck
= 62,400 bags per truck
