**PAC Worldwide has Created a New Online Product Calculator, an
Easy to use Tool on www.pac.com that matches your product dimensions with
the perfect size and style mailer.**

REDMOND,WA — March 27th 2013 — PAC Worldwide has Created a New Online Product Calculator , an easy-to-use tool on www.pac.com that matches your product dimensions with the perfect size and style mailer.

Trying to figure out what size and style mailer your product will fit and ship best in? PAC's new handy calculator makes it easy to do just that! Just select the type of product you are shipping (Fragile, Soft Good, or Do Not Bend), and then enter in the dimensions of the product you want to ship. The calculator will match your product up with the perfect mailer options!

“This calculator tool is a very cool addition to www.pac.com. We wanted to give visitors of our site an easy way to find the perfect-fit mailer to protect their product during transit.” - Erin Smith, Marketing Manager.

About PAC Worldwide Corporation

PAC Worldwide, an industry leader and manufacturer of protective flexible packaging, has built their business up since 1975 based on outstanding service and quality products. This

international company specializes in custom branded and stock mailers (bubble, flat poly, paperboard), flexible pouches, industrial and retail bubble, security bags, folding cartons and automated bags, and many other types of specialty packaging. They also offer a full line of fulfillment services as well as automated packaging systems for high speed applications.
