

Poly Bubble Cushioning

Bubbleroles are made of a multi-layer blend of co-extruded polyethylene. Preferred to increase brand awareness while providing extra protection with air cushioning, keeping products of all shapes and sizes securely in place while protecting them from shock, vibration and abrasion. PAC offers standard industrial sizes (see chart below) and custom retail bubbleroles, choose from printed, colored film, in a bag or in a box.

Key Features

- Superior burst strength—withstands pressure and abuse, giving maximum product protection
- Excellent air retention—stays inflated to provide continued protection
- Good tensile strength—maintains integrity under stress to give products superior protection
- Environmentally friendly—100% recyclable
- Good clarity—product remains highly distinguishable when packed
- Abrasion resistance—provides superior surface protection, eliminating damage
- Bubbleroles in a box—perforated bubble is kept clean and easily dispenses out of the convenient carton

Size	Width	Length
1/2" Large	12"–96"	125 ft. & 250 ft.
3/16" Small	12"–96"	300 ft. & 750 ft.
Slit and perforated upon request
