PAC Worldwide Meets High Standards of ISO Certification

REDMOND, WA — June 29th 2012 — Today PAC Worldwide was granted their ISO 9001 Certification by Eagle Registrations.

The ISO 9001:2008 Quality Management Systems Standard is a testament to PAC Worldwide's commitment to the quality of the products they manufacture and deliver to customers every day. These high standards have enabled PAC to continually meet their customers' expectations year after year and be regarded as a leader in innovative packaging solutions worldwide.

“We are extremely pleased at PAC Worldwide, to receive our ISO certification. While we have been operating under these quality guidelines for several years, and therefore our customers will most likely see no visible change in our processes, the certification will allow them to fulfill documentation requirements when needed, with regard to PAC as a strategic partner.” Steve Foster, Vice-President, Sales.
