

Gusseted Poly Bags

Gusseted Polyjackets are flat poly mailers with an expandable bottom. These ultra-tough, light-weight mailers are made from a durable, moisture resistant, multi-layer blend of co-extruded polyethylene film. This innovative gusseted poly mailer eliminates the need for expensive and inconvenient boxes with void fill because it expands to fit and protect larger e-commerce shipments. Gusseted Polyjackets are ideal for less fragile bulkier shipments such as shoes, clothing, blankets, stuffed soft toys and pharmaceuticals.

Closure System

The pressure sensitive (self-seal) adhesive closure is reliable and tamper-evident. The **Anti-stat** release liner peels off quickly, making it easy to load contents and seal package when the packing process needs to be fast and efficient.

Material

Multi-layer (co-extruded) polyethylene film is durable and moisture resistant with exceptional puncture resistance and tear strength. Its durable nature will provide effective protection, while the clean, white aesthetic enhances your corporate image and customer perception of your product(s).

Construction

The sideweld heat seals and bottom fold construction provides superior bursting strength, so your contents will remain secure from the point of origin to the destination. Side pouch seal construction is also available.

Optional Features

- Dual peel and seal release liners
- Bottom gusset
- Wicket

The Polyjacket is 100% recyclable.

Custom Capabilities

Gain brand recognition and enhance your corporate image with custom, high-quality six color printing. Custom sizes are available.
