

Gusseted Bubble Mailers

Xpandojackets are unique, expandable bottom-gusset bubble mailers made from a durable, moisture resistant, multi-layer blend of co-extruded polyethylene film. The exterior film is laminated to a resilient interior bubble material for effective cushioning protection and is constructed with an expandable bottom gusset and strong side heat seals for superior bursting strength. The bright white exterior film creates the professional image you are looking for and our pressure sensitive self-seal adhesive closure system is reliable, tamper-evident and easy to use. Xpandojackets are ideal for shipping bulkier items such as toys, shoes, handbags and electronic components. Optional dual peel and seal flaps provide e-commerce companies with the perfect solution for customer returns.

PACzip is available on the Xpandojacket. This allows the mailer to be opened more easily by the recipient without compromising the integrity of the mailer or the security of the contents in transit.

Stock or Custom Solutions

Plain white Xpandojackets are available in several sizes through our convenient Stock Products Program. *Be Different... Brand your Deliveries!* Increase your brand awareness by customizing your package with our six color printing capabilities that enable us to print even the most complex designs.

Closure System

The pressure sensitive (self-seal) adhesive closure is reliable and tamper-evident. The **Anti-stat** release liner peels off quickly, making it easy to load contents and seal package when the packing process needs to be fast and efficient.

Opening System

Unlike a traditional perforation, the **PACzip** tear strip opens quickly and easily and does not compromise the security and integrity of the mailer or its contents.

Material

Multi-layer (co-extruded) polyethylene exterior film laminated to an interior bubble material. Durable, moisture resistant with exceptional puncture resistance and tear strength. Clean white, aesthetic appearance. Lightweight and small cubic dimensions. Effective protection for your bulkier products. Enhances your corporate image and customer perception of your product(s).

Construction

The side pouch heat seals and 2" bottom gusset construction provides superior bursting strength, so your contents will remain secure from the point of origin to the destination.

The Xpandojacket is 100% recyclable.

Bottom View

Bottom gusset expands to fit bulkier items.

Custom Capabilities

Gain brand recognition and enhance your corporate image with custom, high-quality six color printing. Custom sizes are available.
